DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of the first invention and the first species in the replies filed on May 11, 2006 and on September 7, 2006 is acknowledged.

2. Claims 5 and 8 through 10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim.

Election was made **without** traverse in the abovementioned replies.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

4. The drawings were received on September 11, 2006. These drawings are approved.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 3 and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for the limitations "the inner peripheral chamber of said inner pipe" as cited in line 2 of claim 3 and for "the outer peripheral chamber of said outer pipe" as cited in lines 2-3 of claim 3, thus rendering claim 3 and claim 4 depending therefrom indefinite.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3744

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 60-87812 (made of record via IDS). Figures 2 and 3 disclose the inventive heater pipe configuration as claimed, including an inner pipe 3a and an outer pipe 4a.

The reference thus reads on the claims.

Allowable Subject Matter

9. Claims 3 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. Claims 6, 7, and 8 through 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
